

CENTRAL KYC RECORDS REGISTRY

CKYC/NOTIF/2024/01

Date: August 12, 2024

To: All entities registered with Central KYC Records Registry (CKYCRR)

Dear Sir / Madam,

Sub: Bulk Update

Updated KYC information is crucial for both reporting entities (REs) and customers, ensuring a secure and efficient financial ecosystem. Up-to-date KYC records help REs detect and prevent fraudulent activities, safeguarding the financial system. It ensures adherence to regulatory requirements, better risk assessment through accurate KYC data and simplifies the process for customers, eliminating the need for repeated submissions of documents.

To simplify the KYC update process, REs can utilise the **Bulk File Update option** provided by CKYCRR to update individual and legal entity records. By leveraging this feature, **REs can update multiple KYC records simultaneously**, saving time and resources. The Bulk Update option is available through 'Bulk file upload' on CKYC web application and through SFTP.

If an RE is linked to a record through upload or download, any updates made to the record by another institution will be communicated via 'Unsolicited Updates'. This report is available in the web application under Logs & Reports and also in the SFTP response folder.

The file structure and sample files for Bulk File Update and Unsolicited Updates are available under the '[Downloads](#)' section of CKYC website, the details of which are provided in Annexure 1.

For any queries/clarifications please contact the helpdesk.
